### ELECTION/RESTRICTIONS

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

i. Claims 1-17, Group I, are drawn to method and apparatus for distribution of music over the network, classified in Class 709, subclass 200.

ii. Claims 18-20, Group II, are drawn to method and apparatus for speech/audio signal processing, classified in Class 704, subclass 243.

Inventions Group I and II are related as subcombinations disclosed as useable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately useable. In the instant case, invention Group I has separate utility such as browsing a music information provider to preview, search and receive the selected audio files over the network. See MPEP 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. A telephone call was made to Allen Wood at (202) 325-0222 on July 6, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
